

You have to pay to read *Sekaiyō Saisaku* on Naver's Korean site, so I've opted to have to cut my claws from the Japanese app, which takes a LONG time and is a pain in the B&H™

So know here on out
left ←→ right, says
left ←→ right

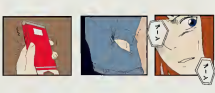

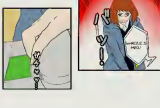

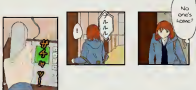

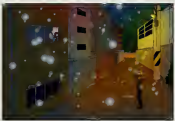

ドキドキ
ズキズキ

But,
sometimes,
happy?

You're already
haired from
the cold

When it
comes to
me, I feel
bad!

As I was
going home
it snowed
This is probably
the first
snowfall,
right?

I figured
you probably
wouldn't
miss it
yet

It's a
superstition, but
A wish made on
the first snow
will be granted

You should
make a
wish!

Absolutely
then,

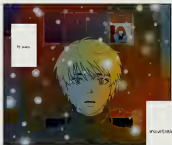

The
snow
was
dancing
that
night

I felt
like I was
about to
burst open,
dancing,
happy

I like you

By way

I really like you
